

Bravo Reports Restatement of its 2024 Financial Statements Following Non-Cash Foreign Exchange Accounting Adjustments

TORONTO, August 29, 2025 – Bravo Mining Corp. (TSX.V: BRVO, OTCQX: BRVMF), (“Bravo” or the “Company”) announces that it is restating its consolidated financial statements for the year ended December 31, 2024 and 2023 (the “Restated FS”), along with a corresponding restated management’s discussion and analysis (the “Restated MD&A”), to reflect non-cash accounting adjustments identified during the preparation of its second-quarter 2025 financial review and after questions identified during an Ontario Securities Commission staff review. All amounts are in United States Dollars (USD) unless stated otherwise.

The Company identified that Bravo Mineração Ltda.’s (“Bravo Mineração”) (which has a functional currency of Brazilian Reals (BRL)) non-monetary assets in Brazil were not correctly translated from Bravo Mineração’s functional currency to the Company’s presentation currency (USD) at the closing rate as of the date of the respective consolidated financial statements, as required by IAS 21, “*The effects of changes in foreign exchange rates*”. The correction of the translation differences resulted in corrections to the exploration and evaluation assets; property, plant and equipment; and accumulated other comprehensive income (loss) (and associated subtotals and totals) on the consolidated statements of financial position and exchange differences on translating foreign operations and comprehensive loss for the year on the consolidated statements of loss and comprehensive loss. These differences did not impact the Company’s monetary assets and liabilities, net loss for the year, net loss per share or the consolidated statements of cash flows.

The restatement reflects a technical correction with no effect on the Corporation's financial health or performance.

Restatement and Disclosure

In accordance with IAS 8, "Accounting Policies, Changes in Accounting Estimates and Errors", Bravo filed the Restated FS and Restated MD&A under the Company's profile on SEDAR+ immediately prior to the filing of its Q2 2025 results. The Company notes that, given its more recent filing of its Q2 2025 results, it has elected not to restate the consolidated financial statements and management's discussion and analysis for the three months ended March 31, 2025 (the "Q1 2025 Results") at this time. The Q1 2025 Results were impacted by the same non-cash foreign exchange accounting issue, and accordingly should not be relied upon.
