About Bravo Mining Corp.

Bravo is a Canadian and Brazil-based mineral exploration and development company focused on advancing its PGM+Au+Ni and Cu-Au Luanga Project, as well as its broader Cu-Au exploration strategy across the Carajás Mineral Province, all in Pará State, Brazil. Bravo is one of the most active explorers in Carajás region.

The team, comprising of local and international geologists, has a proven track record of PGM, nickel, and copper discoveries in the region. They have successfully taken a past IOCG greenfield project from discovery to development and production in the Carajás.

The Luanga Project is situated on mature freehold farming land and benefits from being located close to operating mines and a mining-experienced workforce, with excellent access and proximity to existing infrastructure, including road, rail, and hydroelectric grid power. Bravo's current Environmental, Social and Governance activities include planting more than 56,000 high-value trees in and around the project area and hiring and contracting locally..
